

HOOPER PROPOSALS OPPOSED

U.S. LEAVES WAR DEBTS TO SIMMER

Secretary of State Stimson Hands Note of Refusal to Britain Asking Delay in Payment.

WASHINGTON, Nov. 24.—Despite President Herbert Hoover's avowal of creating an agency to re-examine the war debts, the United States government would do nothing, leaving the next step in the trouble situation to its foreign debtors.

Not only did Mr. Hoover's proposal meet with strong and apparently conclusive opposition by United States congressional leaders, but this opposition was backed by a statement from President-elect Franklin D. Roosevelt that he believed existing diplomatic channels were adequate to treat the new loans from Europe.

Such an expression from the head of the incoming national administration, even though not intended as an indication to congress, was interpreted here as effectively closing the door for the payment to the United States-initiated wholesale review of the \$11,000,000,000 in obligations due this country.

NOTES HANDED OUT

While the situation was developing, Secretary of State Henry L. Stimson handed to British, French and Belgian ambassadors the formal rejection of this government's desire that they should wait for an estimate of the moratorium.

Stimson followed President Hoover's lengthy statement issued yesterday afternoon, which said that the government would not justify postponement of the December 15 payments of nearly \$125,000,000.

Then while "sharp congressional disapproval" to creating an agency to exchange views with foreign governments was being held in Washington, the president sent on route southward in a statement on his own said, "I firmly believe in the principle that an individual debtor nation should at all times pay its debts."

Added Power And Truer Tone In New G.E. Radios

New Type Tubes and New Engineering Achievements Features of New General Electric 1932 Radios

MUSEUMS NOT UP TO MUCH IN DOMINION

Nothing Complimentary to Country in Report of Authorities

OTTAWA, Nov. 24.—Canada's museums don't amount to much and being more or less orphaned, nobody pays a great deal of attention to them except for the small number of public-minded citizens and officials who understand their value in the cultural life of the nation. This in general, summarizes the report of Sir Henry A. Miles, D.S.C., P.R.S., and S. F. Markham M.A., on these institutions in Canada, compiled for the Carnegie Corporation of New York.

The two authorities spent a great part of last year investigating the museum situation in this country. TREMENDOUS AMPLIFICATION For the first time, portable tubes with their tremendous amplification and stability are used as radio receiver amplifiers. This brings selectivity and sensitivity to a far greater point than former limits. The first audio stage is push-pull. Here new triode tubes are employed, especially designed to drive the two-push stage in which other new tubes, designed to operate under the new system are used. Another tube, the Mercury vacuum rectifier, is further employed for the first time in a radio receiver.

In all seven major engineering advances, including twin-push, new radiations, new dual automatic volume control, automatic low tone compensator, new improved tone equalizer, redesigned loud-speaker and improved tone control, distinguish new G.E. De Luxe 12-tube console model now on display. Of the entire range of 18 models offered to the public, nine are equipped with the new radiations while the twelve-tube set, two of the new tube control models and the eight-tube battery and eight-tube console battery models have the remarkable two-push amplification feature.

While public interest will centre on the new tube models, all models embody distinctive advances in engineering and cabinet construction.

Power beyond anything in previous radio sets, reproducing even the highest peaks of spoken exclamations and musical crescendos without a trace of distortion—this is what Canadian General Electric offers this year with its new two-push amplification, incorporated for the first time in an electric radio. As with the highest notes, so the lowest tones and whispers can be reproduced with true-tone fidelity. Twin-push gives the power, and twelve newly designed radio tubes developed especially for the two-push amplification system and perfected after a year of intensive research, guarantee the true-tone quality.

General Electric has earned a wide reputation for realism in radio. In a series of tone tests with other famous makes—blindfold tests with famous composers, orchestras and musical celebrities—the verdict has been overwhelmingly in favor of General Electric, but it tests with the new radiations and with the two-push system, the voice of reputable and distinguished auditors has run as high as 40 to 1 against the other makes.

Today the company claims for its radio the most perfect tone that radio research has achieved.

Only a dozen museum buildings are "well worthy of the towns in which they are situated," the report says. "And pursuant to that comment, it directs attention to the Royal Ontario Museum in Toronto, the new provincial buildings at Saint John and Quebec, the Art Gallery in Vancouver, the Miller building for geology and mineralogy at Kingston, and the Archives in Halifax."

"But apart from these institutions, it must be admitted that most Canadian museums, both in building and equipment, fall far below the average in the remainder of the North American continent." In the main, the average museum in Canada is housed in one or two rooms in a university, college, school, library or government building, scarcely any of which were designed with museum purposes in view.

BREITEN'S DEBT

CONTINUED FROM PAGE ONE

There was a slight weakness in the early stages of the transaction, as a small number of the exchange market, where a large payment would have naturally weakened sterling, saw sterling dropping to \$2.24 in terms of United States funds.

Sterling had weakened again late yesterday, and is now about 16 lower than this late month.

Government spokesmen were very cautious in commenting on the situation and were careful not to create an atmosphere of "indifference." A formal statement is awaited from British Chamberlain, chancellor of the exchequer.

AMERI SUGGESTION The house of commons and the country had a concrete suggestion from L. S. Amery, staunch imperialist and former secretary for the Dominions, that the United Kingdom meet the debt payments in gold as required, but at the same time establish special deposit agencies for imports from the United States which would return the loan of the treasury.

Mr. Amery, in the house yesterday, suggested the duties on United States goods which he would propose, be payable either in gold or dollars to offset the drain on the exchequer of transferring funds to New York to meet the payments.

WILLING TO LISTEN Should the United States look with disfavor on this proposal, he said, he "would be willing to listen" to whatever alternative plan they cared to put forward.

George Lansbury, Labor leader, also had something to say. "It seems to me that the longer course, since a commission probably will be set up, would be to allow time for revision to be made," he said.

The morning papers commented at length on the fact that in case there will be discussion of international trade and economic matters in which the United States will not be the least sufferer.

CANNOT BE CLOSED The Times said the most serious effect of payment would be "the consequences to the League of Nations settlement and the proposed world economic conference, whose prospect for definite and successful success is largely dependent on satisfactory settlement of the whole involved question of these international debts."

The Telegraph said the question of payment next month cannot be closed, and saw a virtual invitation in part of Mr. Hoover's statement to resume the request made in the British note asking extension of the power moratorium.

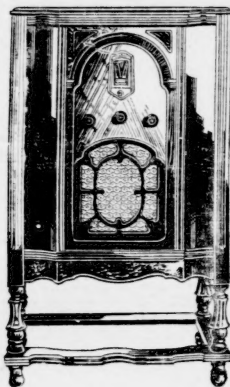

France Ready To Make Its Payment PARIS, Nov. 24.—France appears ready today to make the December payment in new debt interest to the United States if Great Britain and her obligations in Washington

\$35,000 Radium Needles Swept In Incinerator

PHILADELPHIA, Nov. 24.—A \$35,000 radium needle was being hoisted today in an ash heap at the American Osteopathic hospital, after a new cleaning woman swept \$35,000 in radium into the incinerator.

Four needles containing the radium were thrown away. By the use of an electroscope, which gives signals when brought within contact with radium, Frank Markovitch, a physician, recovered three of the previous needles during the night.

The radium is used in the treatment of cancer.

On that date, but parliamentary complications were brewing.

Prime Minister Herriot was represented as prepared to resign the fate of his government in parliament on the point. He failed to attend a meeting of the parliamentary foreign affairs committee yesterday, and the committee postponed discussion of the debt law. This was taken as a sign of confidence.

But Deputy Franklin Bouillon, for example, expressed astonishment that the committee had taken no action, declaring the question was now a parliamentary one in France as well as Great Britain.

MAJORITY OPPOSES Newspapers and press had learned a big majority of the chamber was opposed to payment of the December interest. Some members were insistent that the premier take decisive action without a parliamentary mandate.

The French and Lord Tyrell, the British ambassador talked for some time yesterday, presumably about the question.

Executive usually a well informed, energetic and "in some impossible under the circumstances that debtors governments will not consult together on technical measures to be adopted to prevent the debtors governments from defaulting without the commercial countries' consent. The French and British part affecting too severely their economic and financial balance."

THE ALTERNATIVES

Differs Lake farmers at a largely attended meeting passed resolutions which are:

Immediate departure from the gold standard; Reduction of interest on bank loans and mortgages.

These are the alternatives, set out clearly, and they are inevitable. Let the farmer get what his products are worth in the world markets, or cut down his debt load. One or other will have to be done.

The severity of bank loans to farmers and of investments in farm mortgages are at stake, as really as the solvency of the farmer himself. He cannot pay normal rates of interest from the proceeds of subnormal prices.

If the present program is not allowed to go up, the interest and debt reduction will take care of itself in the long run, to the sorrow of those to whom the farmer owes money.

RECEIPT DULY ACKNOWLEDGED

Through its official spokesman at Geneva, Japan formally rejected the Lytton report as to its aggressive ways in Manchuria and at Shanghai.

The world did not have to wait for the official pronouncement to know what Japan thinks about the report and what it proposes to do in consequence of that. Japan is obliged to make both points clear weeks ago.

Japan intends the Lytton report notwithstanding its proceed with its ill-considered plan for shaping the course of things in the Orient. The western powers do not agree Japan is properly permitted to observe. All that military apologetics and military explanations can do to remove their apprehensions as to the purposes and motives of Japan will be done.

As for the Lytton report, it will be duly pigeon-holed in Tokyo alongside the Stimson speech. These Occidentals are curious folk anyway. Their own notions of international conduct have to be tolerated, but can be ignored. Perhaps in time Buddha will enlighten them. Meanwhile, Manchuria has become Manchukuo, and Moscow has given its blessing. That is the "accomplished fact."

FIVE MILLIONS GONE

The Government of Alberta found itself at the close of the fiscal year, on March 31, with a deficit of \$5,000,000.

It is easily explained. Revenue slumped almost exactly that amount for reasons which need not be amplified.

There was some cutting down of estimated expenditures, but that saving was more than offset by relief and other expenditures, expenditures which could not be accurately forecasted, and by increased debt charges amounting to \$662,750.

The Provincial Treasurer's quality dispels the gloom by saying things are going somewhat better this year, thanks to the increased tax imposed last spring. How much better? He does not say whether another deficit is in prospect, which is likely the case.

The point to be noted is that \$5,000,000 is not merely money withheld for a time, to be paid later. The bulk of it is lost money, represented by an increase in provincial debt that will have to be paid off in cash to come.

Members of the legislature will find in this statement plenty of entertainment for their leisure hours between now and the next session of the session. What do they propose to do about restoring the balance in the provincial finances?

One thing is clear, they must recover the deficit of last year, nor meet the deficit of this year, nor effect a deficit next year, by another boost in tax. Some other means of establishing the equilibrium will have to be found.

A LIVING SHOULD COME FIRST

From Dawson, in the Peace River district, comes a story that is better believed, repeated, and collected. It is reported, underfoot, to collect from a farmer's debt owing by him under the Cows Bill.

The farmer was late in paying his taxes, and the wheat, seed, and the debt to his bank and his creditors were only pay his threatening and threatening bills. That leaves him 140 bushels, worth 21 cents a bushel, or \$29.40, which is support a family of seven. What he will do for next year's seed is not explained.

The local branch of the U. F. A. appropriately passed a resolution that "pending the action of the Government should take measures to protect a farmer against the seizure of so much of his crop as he needs for food for himself and family. They also ask for an amendment of the law that will make the living expense of the farm family the first and absolute priority claim on the crop.

That is putting it mildly. If the facts are as given, in the case cited the Government collectors first impoverished a farmer who was already

feeling a desperate situation, by taking part of his pitifully small crop, realized nothing on the debt by so doing; and the Government will now have to provide for the farmer and his family until another crop is harvested.

If the law of the province does not already make the living expenses of a farm family the first and irremovable charge upon the product of their labor, that omission does not say much for the humanity and sanity of the present and former legislatures.

Why should a farmer take a crop if he has no assurance that his family will be able to eat before he is called upon to pay his debts? And how are farm debts to be paid if farm families cannot live?

Forty Years Ago

From the Files of the Edmonton Bulletin

A new organ for All Saints' church arrived on Monday's train. It has a double key board and pedal attachment.

W. R. Cameron, well known in Edmonton, has a poem in the Free Press on the death of drawing, of Stanley Simpson, at one time of the H.B. Co. service at P. Post, in the effort to save the life of a young man, who was drowned near the coast.

Monday's train got in at 12:15 Tuesday. The delay was caused by overloading the train in an effort to catch up with the rush of freight.

Wm. Ritchie, of Greenfield, North Dakota, arrived on Monday with a large party of land prospectors. F. R. Henderson, formerly in the service of the Canadian Pacific, is removing to Weiskin, where he will open a general store.

It is proposed by the Winnipeg city council to let the Louis bridge to the C.P.R. and build a new bridge before further work is done.

Regina Standard—The people of Wallace, in defeating so popular a man as Mr. McNair, have clearly expressed their disapproval of the Caylor administration, and in so doing they have also rebuffed the universal sentiment. Mr. Caylor has been commanded to step down and out. The people's mandate is clear.

He has any hope of a further political career he will not stand upon the order of his going.

Mr. Caylor has been commanded to step down and out. The people's mandate is clear.

He has any hope of a further political career he will not stand upon the order of his going.

It is proposed by the Winnipeg city council to let the Louis bridge to the C.P.R. and build a new bridge before further work is done.

Regina Standard—The people of Wallace, in defeating so popular a man as Mr. McNair, have clearly expressed their disapproval of the Caylor administration, and in so doing they have also rebuffed the universal sentiment. Mr. Caylor has been commanded to step down and out. The people's mandate is clear.

He has any hope of a further political career he will not stand upon the order of his going.

SIDE GLANCES - By George Clark

What use is there in maintaining Canada's membership in the League of Nations when the Canadian government persistently ignores, in chasing the League, the fact that the League is a shell through which the League's members at Cape Wolfe.

I shall not dissent to the depth of remarking it was a few years ago. Compensation to the extent of \$40 has been voted to Mrs. Huggins without any official regret being tendered to the inhabitants of the League. The League seems to be the only of the two parties who fought a pistol duel over an affair of the heart and wounded a man by the sword of the League's members at Cape Wolfe.

If the naval affair off Cape Wolfe looks like anything but the "Pirates of Penzance," in which Gilbert and Sullivan production shall we entertain the observation that Canadian N.P. who described the League as "Bright Face" around the Hudson Strait for two days looking for an iceberg to ram."

The navigation was considerable inasmuch as no adequate look-out was kept where the League might be expected, but in trying to add to the case against the officers of the Bright Face, the M.P. has introduced a new element.

If some budding Sullivan is looking for a Gilbert, let him hitch up with Representative Tye York of New York who suggests that England should give the League a new "Bright Face" around the Hudson Strait for two days looking for an iceberg to ram."

Everybody realizes now that the only people who were in the war were the contractors and munitions manufacturers. To suggest dithering about the League's members at Cape Wolfe is a genus for absurdity that ought not to be wasted on the chairmanship of a waterways committee.

There's been some keeping in this column too, perhaps to the Eighteenth Amendment and the Volstead Act and the Prohibition Law in United States.

New that prohibition is to be modified, we'd better get our thinking and terminology straightened.

The Eighteenth Amendment prohibits the manufacture and sale of intoxicating liquor. The Volstead Act defines alcoholic liquor for the purposes of the prohibition amendment.

It is a lot of work, but it is not so clear. The Volstead Act might be amended to remove light wines and beer from the list of alcoholic liquors. This would be an evasion of the Eighteenth Amendment.

Henry Ford's shipload of pacifists had a slogan "Out of the trenches for Christmas." The American people have a new one "Beer and wine by Christmas." They're not likely to get it by law by then.

Some of the stores of bathtub gin being bargained for \$20 to \$30 a gallon. The government, the government, distilled berry product, may be in demand again by Christmas.

What a phantasmagoria, celebrating the birth of the Christmas with brain-poisoning concocted from blue vitriol, sulphuric acid and industrial alcohol. It makes one wonder if our civilization isn't due to give way to a new, cleaner, more vital type.

Silly romantic ideas of love, men and women are preparing to set out on a three-day go-away-pique and eat-up-the-boys-go trip through the Southern States. They have each shipped in a box of food, but the food is not to be eaten. They are to eat it after the vessel into a floating mine theatre and equipage and the food is to be eaten after the vessel into a floating mine theatre and equipage.

Your Children

By OLIVE ROBERTS BARTO

WHY TEMPT YOUR CHILDREN?

If we older people were put into as many tempting positions as a day as a child, I wonder how often we should fall from grace.

Of course, the things that tempt them would not tempt us, but it amounts to the same thing.

There is something in a boy that lays the blame for a theft on the looter, if the owner of the property deliberately places it in the path of temptation of someone else, to test his honesty.

Too often we deliberately tempt children in moral power before their control.

Johnny is not allowed chocolate cake, for instance. He sits at the table and watches the big luscious piece by. Everyone takes a piece but himself.

He hears all the murmurs of delight and the remarks about it being the best cake any of them have ever eaten.

His mouth waters. His whole body cries out for one more of that cake. His stinging little cookies have no taste for him now.

So he slides out to the pantry later when no one is looking and looks on the cake, and then another piece but himself.

He hears all the murmurs of delight and the remarks about it being the best cake any of them have ever eaten.

His mouth waters. His whole body cries out for one more of that cake. His stinging little cookies have no taste for him now.

So he slides out to the pantry later when no one is looking and looks on the cake, and then another piece but himself.

He hears all the murmurs of delight and the remarks about it being the best cake any of them have ever eaten.

His mouth waters. His whole body cries out for one more of that cake. His stinging little cookies have no taste for him now.

So he slides out to the pantry later when no one is looking and looks on the cake, and then another piece but himself.

He hears all the murmurs of delight and the remarks about it being the best cake any of them have ever eaten.

His mouth waters. His whole body cries out for one more of that cake. His stinging little cookies have no taste for him now.

DEAR MISS DIX—A girl, a young college graduate, said to me one day, "I want to get married some time, though not just. I want to see more of the world. When I marry, and I have a notion I would like to be a mother's wife. I expect my husband to agree with me, sympathize with me, and love me. I suppose I will have to feel superior to my husband. Do you get that? I am a girl, I feel on this feminine superiority. There is no Mrs. B. yet, but I will never think of marrying a woman who believes in sex superiority. Women are as good as we are. We are as good as men. How about it?"

Answer: It seems to me that women entertain an idea of sex superiority. I thought it was the other way about and that every man thought that he was better and wiser than any woman simply because he had the luck to be born of the masculine persuasion.

And the deadliest insult you can pay a man is to accuse him of being feminine and not "sex" the fighting word among boys? Go to, brother. This little notion of a girl's inferiority is one of sex superiority, but it isn't saved by the balance of her kind. That is why it gives us a laugh when men talk about putting women on a pedestal. We know they do.

As for any woman thinking that she is going to get a husband who will always agree with her and accept her opinions and not "sex" the fighting word among boys? Go to, brother. This little notion of a girl's inferiority is one of sex superiority, but it isn't saved by the balance of her kind. That is why it gives us a laugh when men talk about putting women on a pedestal. We know they do.

As for any woman thinking that she is going to get a husband who will always agree with her and accept her opinions and not "sex" the fighting word among boys? Go to, brother. Pimples on Her Back

Dear Miss Leeds—If I am a girl 16 years old, 5 feet 10 inches tall, please tell me what I should wear for my age and height? (2) I have pimples on my back, they are red and they cannot be cured. How can I cure them? (3) I have dirty blonde hair and a dark complexion. What color should I wear? (4) What kind of cream should I use for my coloring? MAE

Answer—The average weight for your age and height is between 120 and 130 pounds. (2) At bedtime wash your face with warm water and a hair brush and scrub the skin thoroughly. Omit the hair anything if the pimples are on your face. Rinse well. Rub with warm water and solution. (3) Use a mild soap. (4) Allow it to cool. Dry the skin with a clean, soft towel and apply a little boracic acid, which is obtainable from any drug store. Or you may make the following ointment: LUNCHEON: two tablespoons of lard, two tablespoons of powdered zinc oxide, two tablespoons of petroleum jelly, and apply it to the pimples at bedtime. (5) Use a mild soap. (6) Use a mild soap. (7) Use a mild soap. (8) Use a mild soap. (9) Use a mild soap. (10) Use a mild soap. (11) Use a mild soap. (12) Use a mild soap. (13) Use a mild soap. WATERS GETS 3 MONTHS ON BIGAMY COUNT

Annie Bordinjak, Jointly
Charged, Sentenced to
One Month

Claiming that the woman in the case was not to blame than the man, Justice W. C. Ives, sitting in the criminal court on Wednesday, convicted Walter Frederick Waters of bigamy and sentenced him to three months' imprisonment at the Penitentiary of Canada.

Walter Frederick Waters, 34, while Annie Bordinjak, jointly charged, who pleaded guilty, was sentenced to one month, but as she had already served time, she was allowed to go.

She had pleaded guilty to the criminal act of the bigamy count. His Lordship heard this case when the jury was out considering the verdict in the bigamy count. Waters told him he did not believe and could not recall his wife's name.

MARRIED IN GOOD FAITH
Waters testified that he married Mrs. Bordinjak in good faith and that she had told him she was divorced and in July, 1932, had married a man named "John" who was a member of the same district. They were married in this city.

She said Waters told her he didn't believe she had been properly married and that he did not require a divorce to marry him. Edward B. Cowley, K.C., prosecuted and M. McLeod defended.

Directors of the Kiwanis club held a luncheon meeting in the Macdonald hotel on Wednesday. General club business was discussed at the gathering.

Gleaned From Today's News

Bank clearing house figures in Edmonton for the week ending Thursday, November 24, are \$1,194,123.83. For the same week last year they were \$1,377,911.10.

Gyro Club directors met at a luncheon in the Macdonald hotel on Wednesday for the purpose of discussing various business matters.

The usual monthly general meeting of the Unemployed & Service-men's Association of Edmonton will be held in the Memorial hall on Sunday, November 27, at 7 p.m.

W. BOHLSCHIED DISMISSED ON THEFT CHARGE

Mr. Justice Ives Grants Motion of Defence for Non-suit

Holding that the crown had not advanced proof of guilt and that the evidence was insufficient to support a conviction, Mr. Justice W. C. Ives, sitting in the criminal court on Thursday, granted a motion for non-suit made by the defence in the case of Wilhelm Bohlschied, charged with the theft of a coat.

The victim was standing in front of the boiler in which pudding was cooking when the apparition was seen.

I. E. BROWNLEE TO ADDRESS CHAMBER

On a subject which will be announced later, Hon. J. E. Brownlee, member of Alberta, will address a meeting of the Edmonton Chamber of Commerce, to be held at the Macdonald hotel on Wednesday, Dec. 1.

The meeting will take the form of one of the regular luncheon meetings of the chamber.

Complaint stated that he went to the house and demanded the money. The defendant was charged with the theft of a coat. The victim was standing in front of the boiler in which pudding was cooking when the apparition was seen.

WOMEN CHEQUE ARTISTS SOUGHT

Police started on the trail of two women cheque artists Thursday morning after half a dozen city business concerns which accepted rubber cheques early this week, reported the worthless documents.

One woman, described as young and attractive, made application to the court for the appointment of James H. O'Brien as receiver, which application was granted.

At Miss R. L. Kelly, the young woman, a rubber cheque for eight dollars in a shoe store in the city was cashed.

At Miss L. Murray, who paid two cheques off on a jewelry firm, and at Miss Laura Sten, who cashed a cheque for \$22.00 in a city department store.

On each case she made a small purchase and took the balance in cash. The second woman, described as a middle aged and stout, forged a cheque and obtained goods and cash in a men's wear store.

Tories Express Confidence In Their Leader

Confidence in the leadership of D. M. Duggan and extension organization work formed the basis of a meeting of the executives of the Edmonton Conservative Association held at the Cornhill hotel on Wednesday.

A resolution endorsing and approving of Mr. Duggan's leadership was passed unanimously.

In all about 50 enthusiastic Conservative workers attended and Dr. J. F. Robinson, president of the Association, presided.

Short addresses were given by Mr. Duggan, H. Ray Miller, president of the provincial Conservative Association, and J. A. Buchanan, Conservative organizer.

Rev. H. A. McLeod, Luncheon Speaker

I Saw Today

The fortnightly meeting of the Northern Alberta Stamp club will be held on Friday, November 25, at 8 p.m. at the B. & B. Hotel.

Mr. K. Matthews and Mrs. Green, residents of Edmonton, will leave the city over the weekend for Quebec on which point they will sail on the S.S. Duquesne for Liverpool on November 30.

Both are travelling over the C.P.R. and Mrs. Green will be accompanied by her two children.

PROPOSAL OF MOTOR ASS'N NOT FAVORED

Suggestion to Issue Auto Licenses March 31 Not Thought Best

Proposed by the Alberta Motor Association to have automobile license plates issued at the end of March, instead of the date in the next, is not regarded with special favor by the government.

The proposal was made by the A.M.A. at a meeting of licensees from March 31 to the end of the year, held in the city of Edmonton.

It is said that motorists with license plates issued at the end of the year, frequently allow their cars to be used by others, who do not pay license taxes.

Regarding the proposed change, Edmund Townbridge, deputy provincial secretary, said that it was up to the government to decide whether or not to issue license plates at the end of the year.

Any such change would involve an amendment to the Act governing the motor vehicle license, which would be in effect on March 31.

However, from an administrative point of view, it is considered inadvisable to make any change in the date of issue of license plates.

A.M.A. the fact remained that the motor vehicle license revenue of the year—more than \$1,000,000 coming in by the end of the fiscal year ending March 31, in which revenue is received, rather than at the end of the year.

As to the proposal to issue license plates at the end of the year, it was not the best move.

SEEK RESIGNATION BENNETT GOVT.

Claiming that the "utterly impossible" position in which they find themselves today is due entirely to the "gross mismanagement" of the Bennett government and the disregard of the interests of the people, being of livestock producers of Canada, the Western Livestock Producers' Association has called upon the Bennett administration to resign.

Frank S. James, chairman of the association, which represents more than 300 farmers and patrons, has forwarded the following resolution to William Irvine, member of parliament for Wetaskiwin, in which Irvine is situated.

As a result of the alleged shepherding of the Bennett administration, the association members state that the future of our life work and our human endurance is exhausted.

In seeking resignation of the Bennett government, the association members "pledge ourselves to support such a move with all the power at our command."

Motors For Use Streets For Garage Will Be Checked Up

Motors who turn city streets into temporary garages are going to be checked up by the city engineer, according to Sergeant Major Fraser, chief of the traffic squad who announced Thursday that the city will carefully check the times of use of the streets.

This move on the part of the traffic squad has been made necessary by complaints of the city engineer's department. Foremen in charge of street cleaning now from streets report that cars parked for long periods of time make it difficult for the men to complete the job.

A rapid survey by police reported that some cars have been parked on streets in residential districts for days at a time, while motorists down town have left their cars on the streets for long periods.

One man brought in Thursday morning paid a fine of \$10.00 for parking on a street for more than 24 hours. The fine was \$10.00.

TWO MOTORISTS FOUND GUILTY MANSLAUGHTER

Nelson and Bergen Sentenced to One Year's Suspended Sentence

Returning to the court room after four hours and 20 minutes' deliberation, a jury in the Criminal court on Wednesday afternoon delivered a verdict of guilty against Berg and Nelson, who were charged with manslaughter resulting from the death of Alexander Taylor following an accident at 11:30 a.m. on Sept. 14 last, on Portage avenue.

The jury had retired at 10:30 a.m. and returned at 1:30 p.m. Added to the verdict was a strong recommendation for leniency in sentencing. Giving full effect to this recommendation, Mr. Justice W. C. Ives sentenced both to one year's suspended sentence.

His lordship found them over on their bonds of \$500 for the period of one year.

LAST JURY CASE

Beyond thanking the jurymen for their services, Mr. Justice W. C. Ives, sitting in the Criminal court on Wednesday afternoon, adjourned the court until the next day, when the case of the Crown vs. the Crown will be heard.

After the verdict had been rendered, the jurymen were discharged. The jurymen were discharged. The jurymen were discharged.

LEFT COURT ROOM

The jurymen, binding Berg and Nelson on their bonds of \$500, were discharged. The jurymen were discharged. The jurymen were discharged.

For more than two days and one-half the trial had been in progress. Taylor met his death as he was riding his bicycle south-west on Portage avenue. He had been at his work at the time of the accident.

After the evening in question and about 11:30 p.m. had mounted his bicycle to a friend, J. Baker, and together they had ridden north on Portage avenue.

After the two friends separated, Taylor was knocked from his bicycle and suffering serious injuries, died shortly after at the hospital.

After the trial, the charge was laid against Nelson and two days later, following subsequent investigations, a similar charge was laid against Berg.

The charge was laid against Berg by the crown that both cars had contributed to the fatal accident. The charge was laid against Berg by the crown that both cars had contributed to the fatal accident.

Defence counsel had applied for a writ of habeas corpus, which was refused by a supreme court judge on the ground that the two men were charged on the same indictment and with equal culpability.

The charge was laid against Berg by the crown that both cars had contributed to the fatal accident. The charge was laid against Berg by the crown that both cars had contributed to the fatal accident.

Alberta Market Cattle Bring Good Prices At Toronto Auction Sale

Police Court

T. Eaton Company Purchases U. of A. Champion Cross-Bred Steer

Excellent prices were obtained by Alberta market cattle at the auction sale which opened up the agricultural market on Thursday, according to the report of the Toronto Press.

The University of Alberta's champion cross-bred steer at 30 months of age, while the U. of A. champion Angus cross-bred steer at 20 months of age, brought \$1,000.00.

The C.P.R. prize-winning car of Angus steers averaging 1125 pounds in weight each, sold for nine cents a pound and went to the second prize car, which was sold for eight cents a pound.

The second prize car, which was sold for eight cents a pound, was sold for eight cents a pound. The second prize car, which was sold for eight cents a pound, was sold for eight cents a pound.

The general run of prices at the sale was at least 25 per cent above the regular market price for steers of the same quality.

HUNTERS ENJOY GOOD SEASON

Big game hunters are enjoying a highly successful season, according to the report of the Canadian Game Commission.

On Thursday, Mr. Clark received a report from Donald Phillips, big game hunter, who states that in a 30 day trip through country to the north of Jasper, he had secured a good season.

He also stated that he is much pleased with the results of his hunt. He also stated that he is much pleased with the results of his hunt.

Incidentally, this is the first open season since 1919, when the season for sheep and deer was closed, but moose and deer are still open.

Outside of the forest reserves, in this area between the forest and the mountains, hunters are having good success.

From other sections, as well, Mr. Clark has received news of fine hunting.

DEPT. STORES
101 St. St. N. E. Edmonton

An early start and a long, "split" season is revealed in the 1933 senior schedule of the Alberta Rugby Football Union, released today by

In a big effort to provide fans with a sufficient number of games and to firmly establish the gridiron pastime as an outstanding major sport in the province, the A.R.F.U. decided to get the schedule started on Labor Day, September 4, 1933, and between that time and October 14, there will be eight games. These games will be divided into two halves of the schedule, with the winners of each half playing off for the provincial championship and the right to advance into the Inter-

Reason for the split schedule is that Varsity cannot start play during the month of September, which means that Calgary Altomans and Edmonton Eskimos will appear in the first half, with Varsity playing all of its games in the second half of the season.

Previous schedules have been criticized for not providing enough football for the fans. As a consequence, individual club performances suffered because of particularly under adverse weather conditions such as experienced this year. This also was one of the reasons for an early start, which, in

turn, only possible under a split schedule. Unlike the whole league schedule as drawn, Ekimovs and Altomans will be assured of three home games, with a fourth added if they succeed in winning a place in the provincial playoffs. As it is impossible for the Varsity team to readjust the schedule after last Saturday in September, the earliest and, as Altomans and Ekimovs each have two chances to get into the playoffs, it was thought only fair to give Varsity two opponents, also, as per the split series in the second round. The schedule Varsity will be called upon to play four games in the 15 days from September 30 to October 14.

While the schedule is somewhat intrinsic at first glance, it has in its favor the fact that all scores made in games up to October 14 will have a bearing on at least one of the provincial finalists.

Following is the schedule as drawn:

FIRST HALF

Mon. Sept. 4 (Labor Day)—Altamira at Eskimos.

Sat. Sept. 9—Eskimos at Altamira.

Sat. Sept. 16—Altamira at Eskimos.

The first half is to be played on the points system award—two (2) points for a win; one (1) point for a tie.

In the event of a tied round in minutes play in the last game (Sot-23), tie-break total of all scores made in the four games will decide winner.

Should it happen that the two clubs scheduled are tied in both points and total scores at the conclusion of sixty (60) minutes of play, the game will continue for an additional 23 minutes, that same must go into overtime 1st decision.

SECOND HALF
Sat. Sept. 30—Varsity at Eskimoes.
Oct. 7—Varsity at Altonmah.
Mon. Oct. 9 (Thanksgiving)—Altonmah at Varsity.
Sat. Oct. 14—Belmont at Varsity.
In this second half, each home team has a bye week. Varsity at Belmont on Sept. 30 and Oct. 14; and Varsity vs Altonmah on Oct. 7 and 9—are to be considered separately. The highest total of scores made by any one club in either of the home-away series, will decide the winner of the second half.

Schedule of Playdowns for Senior

Provincial Championships
Sat. Oct. 21—Winners of First Half vs. Winners of Second Half
Sat. Oct. 22—Winners of First Half vs. Winners of Second Half.
 The winners of the home-away home games, highest total of points scored in the two games to decide the championship.
 On the event of the playoff series being tied after sixty (60) minutes of play in the second game, that game must go into overtime to a decision.

WHEAT MARKET SET BACK INTO DULL TRADING

WINNIPEG, Nov. 24.—Apathy of overseas buyers and absence of trading during the entire session were 60,000 bushels of export wheat from both Atlantic and Pacific ports. Offerings were quite moderate with buyers reduced by the smaller country deliveries which dropped to less than 1,000,000 bushels yesterday.

Roundhead, Alameda, Argentine wheat was not competitive but was unable to come to any real business in Canadian wheat. Buenos Aires export wheat at 40¢, lower than Wednesday's final figure.

November closed at 40¢, December at 41¢, May at 42¢ and July at 39¢.

In spite of the persistent dullness of trading during the entire session some 60,000 bushels of export wheat were shipped from both Atlantic and Pacific ports. Offerings were quite moderate with buyers reduced by the smaller country deliveries which dropped to less than 1,000,000 bushels yesterday.

OIL PRODUCTION

66,841 BARRELS

Alberta oil production for October totaled 66,841 barrels, according to figures released on Thursday by Hon. R. G. Reid, provincial treasurer and minister of lands and mines. Of this, the greater percentage was produced in Turner Valley, which totalled 62,001 barrels, while light crude from the same field today averaged 1,750 barrels. The Redoubt field was responsible for 2,274 barrels, and Wainwright yielded 461 barrels.

Turner Valley production about 4 1/2 per cent was lost by evaporation and minor oil losses. Oil production was greater than rated by 2,372 barrels, the difference being due to the fact that the field is producing about 14,000 barrels daily. The Turner Valley field is controlled by Frontier Developments Ltd., which has a 50 per cent interest in the field and of the Turner Valley field is about 11 miles south of the test made at Damsay, where the oil-bearing formation was encountered at about 1,300 to 1,400 feet, and continued to about 2,000 feet.

Millinery Will Reduce

One of these smart, "better" hats—will give your wardrobe a "new lease on life." All in a beautiful quality, of felt-brimmed models, close-fitting shapes, jauntily trimmed with new fashion fancies. Good selection of head sizes and colors. Reg. \$6.50 and \$10.00. FRIDAY BARGAIN.

—Millinery, Second Floor

Bath Salts

They're refreshing and mildly perfumed and softening to the water—in attractive novelty containers. Usually \$1.25 to \$5.00. FRIDAY BARGAIN.

All-Silk Chiffon Worth a Higher Pricing

A beautiful fabric for evening frocks, dainty, too, for lingerie. This gauzy sheer chiffon is 40 inches wide and comes in shades of beige, black, vanilla, brown, peach, white, hyacinth, pearl, rose, romantic, claret, azure, Nile, sea sand and stargold. FRIDAY BARGAIN.

Extraordinary Value! Silk Canton Crepe

A lovely firm and evenly-woven crepe that sold at \$1.50 but a few months ago! Woven with just enough crepiness to be smart, with a sheenness that is flattering and dressy. Dived in a wide range of fashionable colors: Black, brown, claret, olive, rose, turquoise, wine, dark purple, navy, challenge blue, sage, hyacinth, fawn, scarlet, peach, dark navy, cricket green, stargold, pink, Nile, eggshell and white. 56 inches wide. FRIDAY BARGAIN.
